Dayforma — low-fi wireframe exploration

Single-user AI calendar + todo app (CSC 710). This sheet explores how the main screens *could* be shaped before we commit to pixels. Each tab has 3 variations that trade off **AI prominence**, **layout density**, and **novelty**.

System: 4 views (Month/Week/Day/Agenda) · todos · AI assistant · voice

Goal: pick one direction per screen, merge, then graduate to hi-fi.

Drawn in pencil on purpose. Nothing here is final — the point is to compare *shapes*, not polish.

What's in each tab

LANDING

First impression

Hero, value prop, CTA. Explores typographic vs product-preview vs narrative approaches.

AUTH

Login / Register / Try Demo

One-panel toggle, split screen, and one-field "magic" progressive disclosure.

DASHBOARD

The main view

Classic split, AI-first command bar, and a novel "timeline-river" metaphor.

AI PANEL

Where Claude lives

Drawer, inline command palette, ambient cards. Each surfaces Undo differently.

MODALS

Event + Todo detail

Form-heavy vs conversational vs structured grid.

MOBILE

Phone layouts

Agenda-first + bottom drawer todo + FAB mic.

Landing page

Public entry. Goal: get the user to "Start" or "Try demo" in seconds. Three angles on what we lead with.

1 Typographic hero

safe · bold wordmark

dayforma.app

Dayforma

Features Team Log in

Shape your day.

An AI that actually *puts things* on your calendar — not just suggests.

Start → Try demo

01 AI that plans

02 Voice-first

03 Undo anything

type-led · minimal chrome

2 Live product peek

show, don't tell

dayforma.app

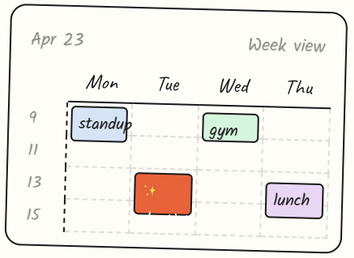
Dayforma

Log in

SPRING 2026 · CSC 710

Type it. It's on your calendar.

Natural-language todos become events, with a 30-second undo.



Start Try demo

product screenshot · 2-col hero

3 Manifesto scroll

novel · opinionated

dayforma.app

Dayforma

Try demo

Your calendar knows when. Your todos know what. Dayforma knows both.

ACT
"dentist tomorrow at 3" → scheduled.

LISTEN
Press the mic. Talk like you mean it.

UNDO
30 seconds to take anything back.

Start — it's free →

manifesto · scroll-story

Auth — login / register / demo

*Single route `/login` toggles modes. The **Try Demo** button has to be impossible to miss.*

1 Card on paper — classic

Dayforma

What's your email?

→

We'll figure out if you're new or returning.

🎯 Skip — try demo

one question at a time →

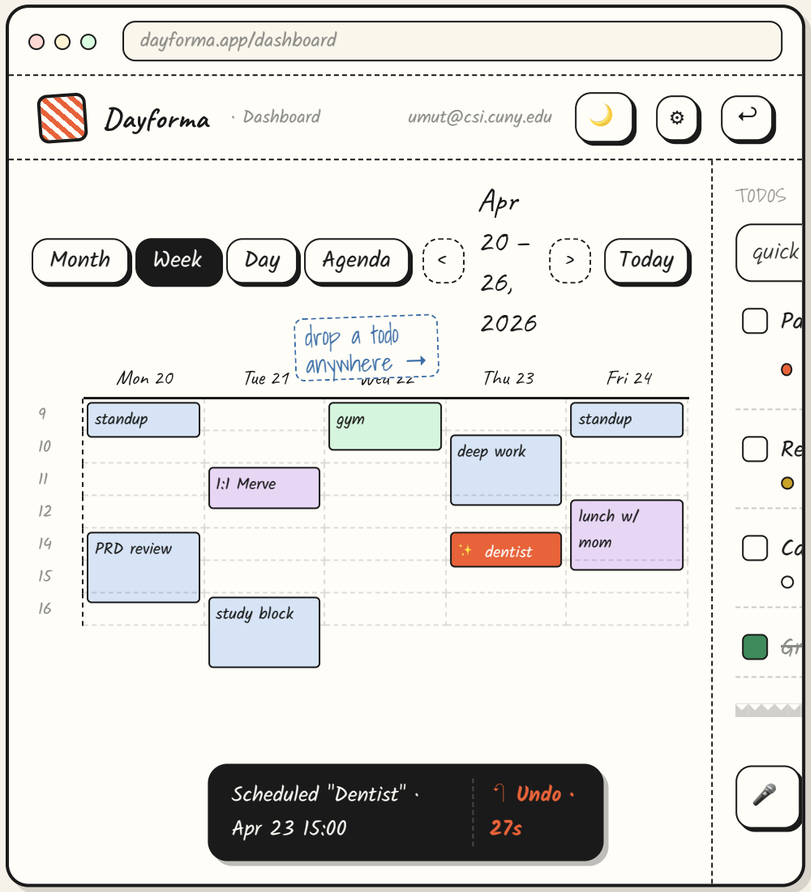
progressive · reduces decision fatigue

Dashboard

The main view. Three directions: classic split (PRD baseline), AI-first command bar, and a novel timeline river.

1 Classic split · calendar 2/3 + todo panel 1/3

PRD baseline



PRD-faithful · split 2:1 · AI button bottom-right

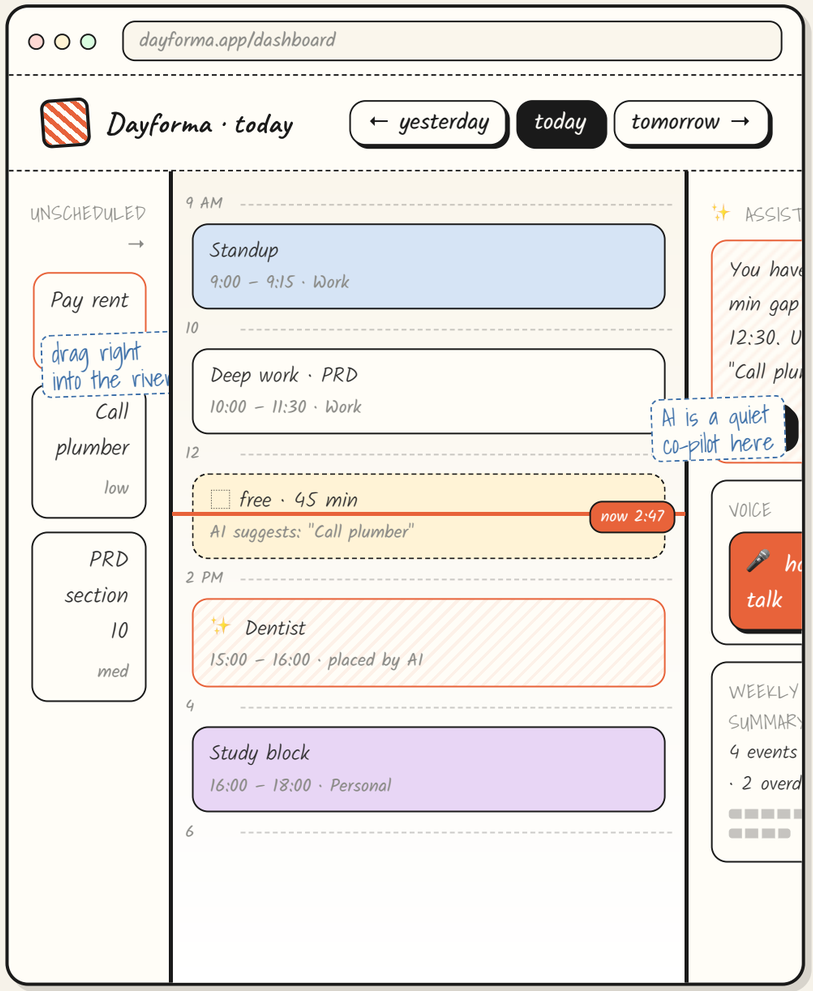
2 AI-first · command bar up top

mix: safe + novel

AI command bar · compact rail · month default

3 Timeline river · vertical day stream

novel · spatial metaphor



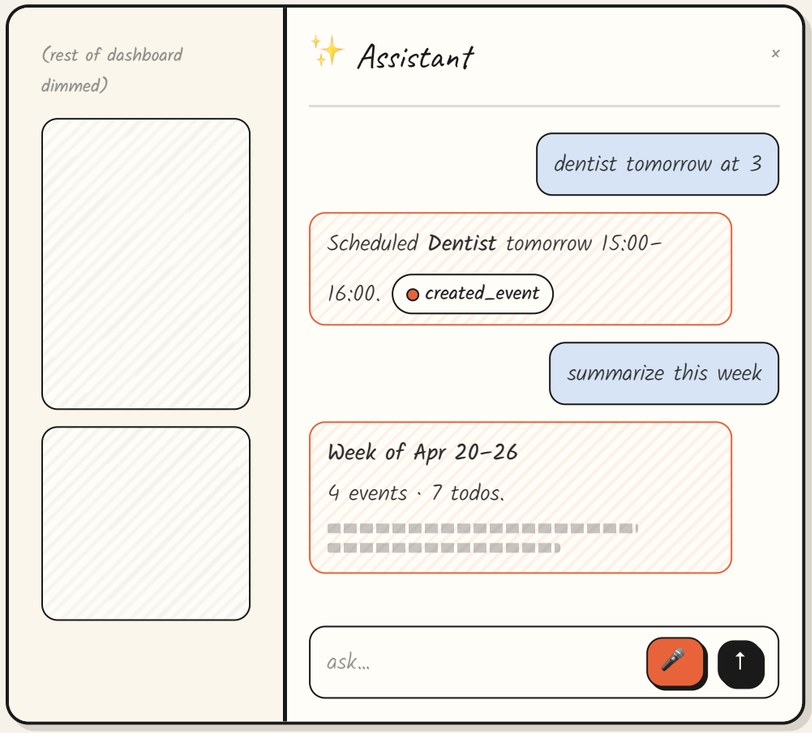
vertical day · drag-in from left · AI co-pilot on right

AI assistant surface

*Three ways Claude can live inside Dayforma. Differs in visibility, history, and how **Undo** is surfaced.*

1 Slide-out drawer

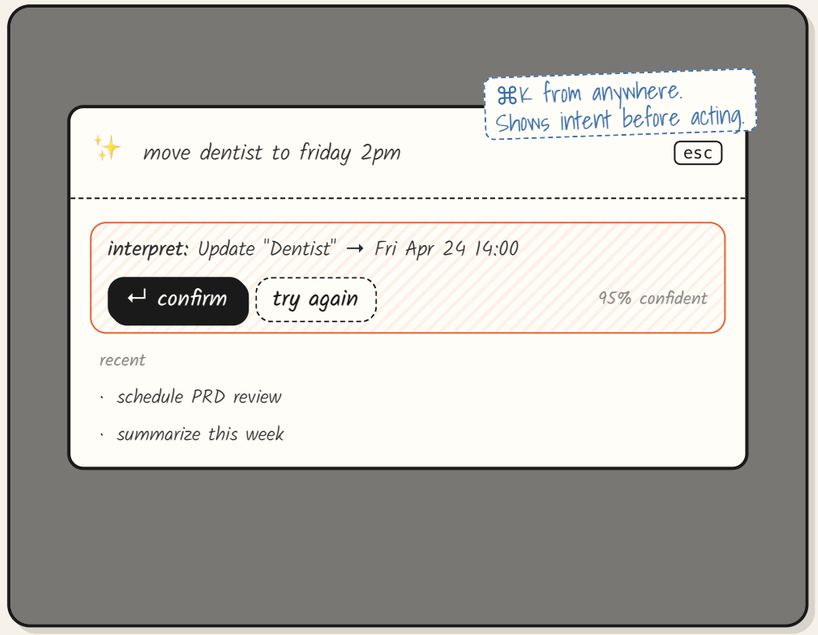
PRD default



drawer · chat history · undo in toast

2 Command palette ⌘K

fast · inline



palette · confidence preview · confirm before mutate

3 Ambient cards + undo strip

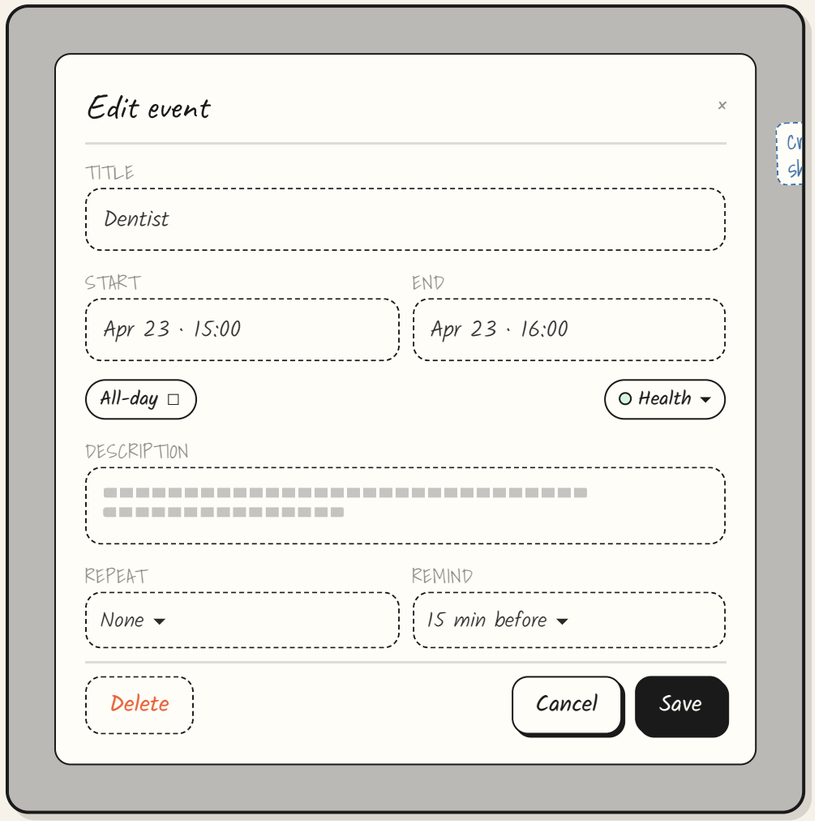
novel · low-chrome

ambient · no chat log · persistent undo strip

Event + Todo modals

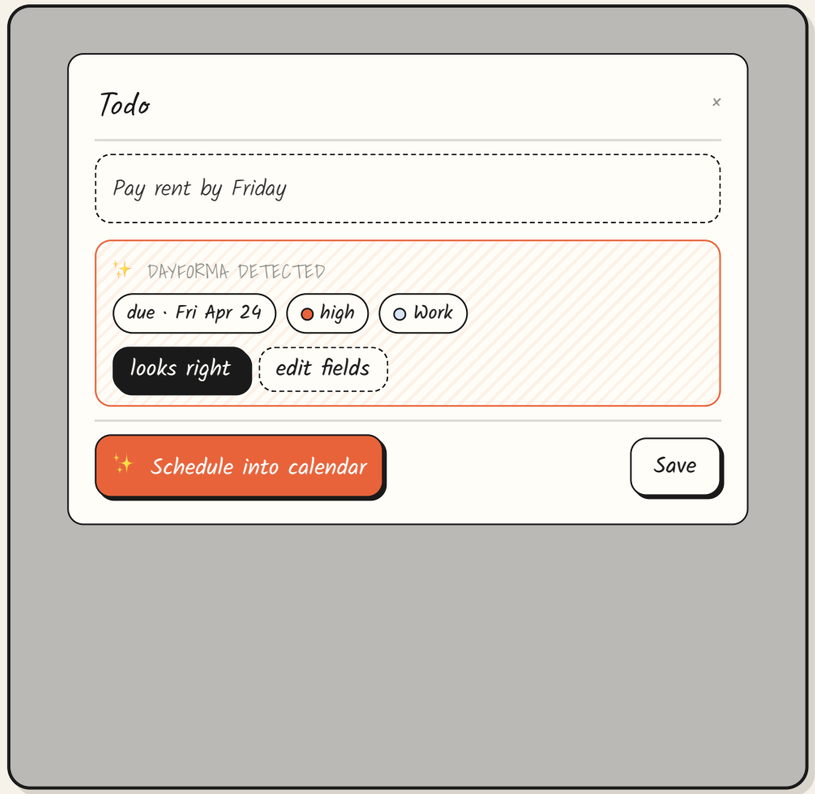
Three takes on detail editing. Differs by how much of the form is visible up front.

1 Event modal — full form (classic)



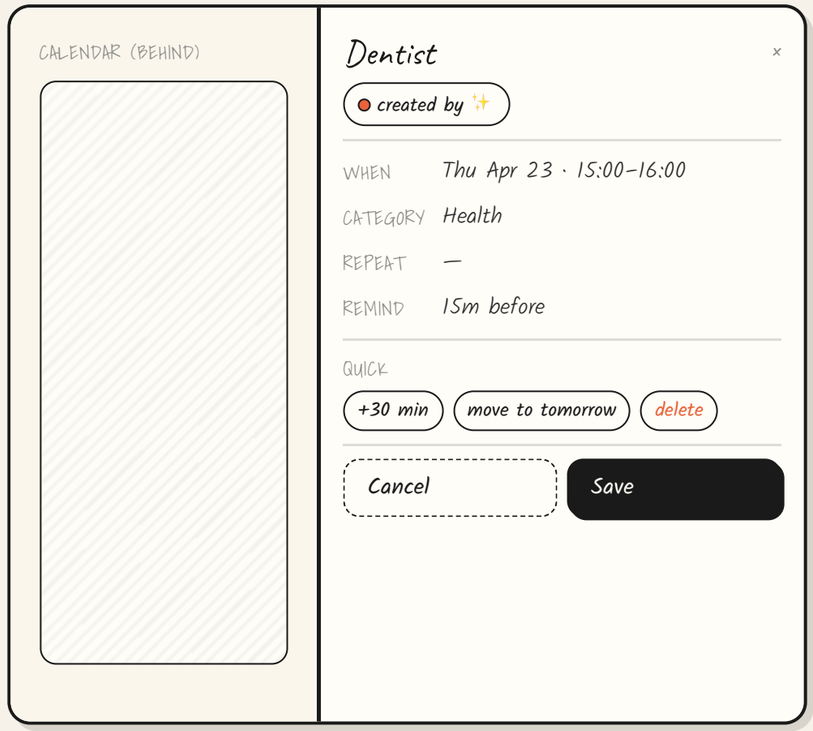
event modal · all fields visible

2 Todo modal — conversational (AI-forward)



todo · AI-suggested fields chip-style

3 Inline edit — side sheet (no modal, less flow break)

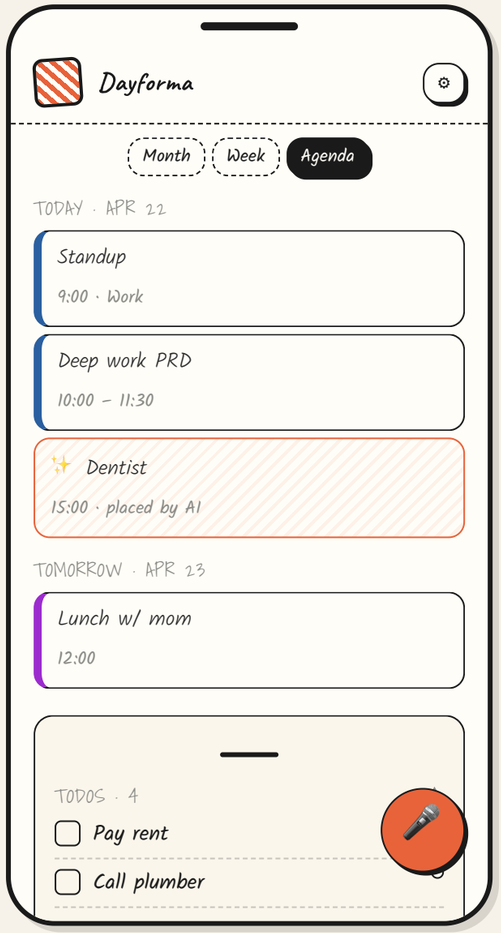


side sheet · quick-action chips

Mobile

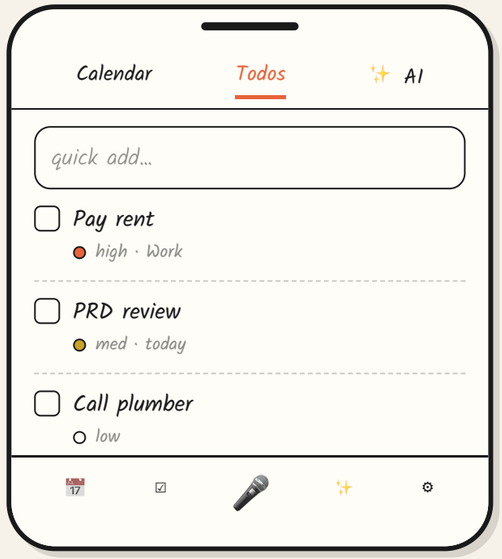
Phone viewport (<768px). Agenda-first, bottom drawer for todos, FAB for mic.

1 Agenda + bottom drawer — PRD default



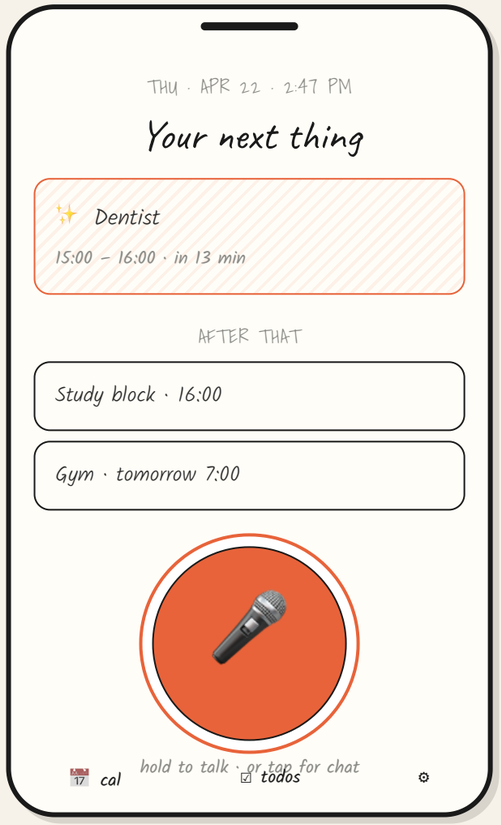
agenda-first · drawer peek

2 Swipe tabs · cal ↔ todo ↔ AI — native-feel



tab bar bottom · swipe panes

3 Voice-first lockscreen — novel · one-thumb



one-thumb · voice is the primary input

Micro-states worth showing

UNDO TOAST (30S)

Scheduled "Dentist" · Apr 23 15:00 | Undo · 27s

Sonner-style, anchored bottom-center. Countdown makes the 30s window legible.

VOICE LISTENING

"lunch with mom next tuesday noon..."

listening — release to send

EMPTY STATE · TODOS

Nothing here yet. Try typing "call plumber tomorrow at 9" or pressing .

+ add | try example
